

# ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2010

I am responsible for the preparation of these annual financial statements, which are set out on page 1 to 36, in terms of Section 126(1) of the Municipal Finance Management Act and which I have signed on behalf of the Municipality.

I certify that the salaries, allowances and benefits of Councillors as disclosed in note 18 of these annual financial statements are within the upper limits of the frameworks envisaged in Section 219 of the Constitution, read with the Remuneration of Public Office Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this Act.

WIM MNGOMEZULU MUNICIPAL MANAGER 31/8/2010 DATE

# MANDATORY ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2010

### 1. BASIS OF PRESENTATION

The financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practices (GRAP).

The standards are summarized as follows:

GRAP 1	Presentation of Financial Statements
GRAP 2	Cash Flow Statements
GRAP 3	Accounting Policies, Changes in Accounting Estimates and Errors
GRAP 4	The Effects of Changes in Foreign Exchange Rates
GRAP 6	Consolidated Financial Statements and Accounting for Controlled Entities
GRAP 7	Accounting for Investments in Associates
GRAP 8	Financial Reporting of Interests in Joint Ventures
GRAP 9	Revenue
GRAP 12	Inventories
GRAP 17	Property, Plant and Equipment
GRAP 19	Provisions, Contingent Liabilities and Contingent Asset
GRAP 6,7 and	8 have been complied with to the extent that the requirements in these standards relate to

GRAP 6,7 and 8 have been complied with to the extent that the requirements in these standards relate to the municipality's separate financial statements.

Accounting policies for material transactions, events or conditions not covered by the above GRAP and GAMAP Standards have been developed in accordance with paragraphs 7, 11 and 12 of GRAP 3. These Accounting policies and the applicable disclosures have been based on the South African Statements of Generally Accepted Accounting Practices (GAAP) including any interpretations of such Statements issued by the Accounting Practices Board.

The Minister of Finance has, in terms of General notice 552 of 2007 exempted compliance with certain of the above-mentioned standards and aspects or parts of these standards. Details of the exemptions applicable to the municipality have been provided in the notes to the annual financial statements.

A summary of the significant accounting policies, which have been consistently applied except where an exemption has been granted, are disclosed below.

### 2. PRESENTATION CURRENCY

These annual financial statements are presented in South African Rand.

### 3. GOING CONCERN ASSUMPTION

These annual financial statements have been prepared on a going concern basis.

### 4. OFFSETTING

Assets, liabilities, revenues and expenses have not been offset except when offsetting is required or permitted by a Standard of GAMAP, GRAP or GAAP.

### 5. RESERVES

### Conditional Grants and receipts

Revenue received from conditional grants, donations and funding are recognised as revenue to the extent that the Municipality has complied with any of the criteria, conditions or obligations embodied

in the agreement. To the extent that the criteria, conditions or obligations have not been met a liability is recognised.

### 5.1 CAPITAL REPLACEMENT RESERVE (CRR)

In order to finance the provision of infrastructure and other items of property, plant and equipment from internal sources, amounts are transferred from the accumulated surplus to the CRR. A corresponding amount is transferred to a designated CRR bank or investment account.

The cash in the designated CRR bank account can only be utilised to finance items of property, plant and equipment. The CRR is reduced and the accumulated surplus/deficit is credited by a corresponding amount when the amounts in the CRR are utilised.

The amount transferred to the CRR is based on the municipality's need to finance future capital projects included in the Integrated Development Plan.

### **5.2 CAPITALISATION RESERVE**

On the implementation of GRAP, the balance on certain funds, created in terms of the various Provincial Ordinances applicable at the time, that had historically been utilised for the acquisition of items of property, plant and equipment have been transferred to a Capitalisation Reserve instead of the accumulated surplus/deficit in terms of a directive (budget circular) issued by National Treasury. The purpose of this Reserve is to promote consumer equity by ensuring that the future depreciation expenses that will be incurred over the useful lives of these items of property, plant and equipment are offset by transfers from this reserve to the accumulated surplus/deficit.

The balance on the Capitalisation Reserve equals the carrying value of the items of property, plant and equipment financed from the former legislated funds. When items of property, plant and equipment are depreciated, a transfer is made from the Capitalisation Reserve to the accumulated surplus/deficit.

When an item of property, plant and equipment is disposed, the balance in the Capitalisation Reserve relating to such item is transferred to the accumulated surplus.

### **5.3 GOVERNMENT GRANT RESERVE**

When items of property, plant and equipment are purchased from government grants, a transfer is made from the accumulated surplus to the Government Grants Reserve equal to the Government Grant recorded as revenue in the Statement of Financial Performance in accordance with a directive (budget circular) issued by National Treasury. When such items of property, plant and equipment are depreciated, a transfer is made from the Government Grant Reserve to the accumulated surplus/deficit. The purpose of this policy is to promote community equity by ensuring that the future depreciation expenses that will be incurred over the useful lives of government grant funded items of property, plant and equipment are offset by transfers from this reserve to the accumulated surplus/deficit.

When an item of property, plant and equipment financed from government grants is disposed, the balance in the government grant reserve relating to such item is transferred to the emulated surplus/deficit.

### **5.4 REVALUATION RESERVE**

The surplus arising from the revaluation of land and buildings is credited to a non-distributable reserve. The revaluation surplus is realised as revalued buildings are depreciated, through a transfer from the revaluation reserve to the accumulated surplus/deficit. On disposal, the net revaluation surplus is transferred to the accumulated surplus/deficit while gains or losses on disposal based on revalued amounts are credited or charged to the statement of financial performance.

### 6. PROPERTY, PLANT AND EQUIPMENT

The Municipality has taken the advantage of the transitional provision in GRAp 17 paragraph 86.

An item of property, plant and equipment, which qualifies for recognition, as an asset shall initially be measured at cost.

Where an asset is acquired at no cost, or for a nominal cost, its cost is its fair value as at the date of acquisition.

The cost of an item of property, plant and equipment includes the estimated cost of dismantling the asset and restoring the site to the extent that it is recognised as a provision.

Property, plant and equipment are stated at cost less accumulated depreciation. Heritage assets which are culturally significant resources and which are shown at cost, are not depreciated owing to the uncertainty regarding their estimated useful lives. Similarly, land is not depreciated as it is deemed to have an indefinite life.

The useful life of an item of property plant and equipment is reviewed periodically and if expectations are significantly different from previous estimates, the depreciation charge from the current and future periods shall be adjusted. The estimated useful lives and the depreciation methods was not reviewed in the previous and current financial years as required by GRAP 17 as these requirements have been exempted in terms of General Notice 552 of 2007.

Where items of property, plant and equipment have been impaired, the carrying value is adjusted by the impairment loss which is recognised as an expense in the period that the impairment is identified.

### **Impairment**

Where the carrying amount of an item of property, plant and equipment is greater than the estimated recoverable amount, it should be written down immediately to its recoverable amount and an impairment loss is charged to the Statement of Financial Performance. The municipality should assess at **each reporting date** whether there is any indication that any items of PPE may be impaired by reviewing external and internal sources of information which indicates that impairments may have occurred. However, for the previous and current year under review, the municipality did not perform impairment testing on its assets as required by GRAP 17 and IAS 36/AC128, as these requirements have been exempted in terms of General Notice 552 of 2007.

Subsequent expenditure is capitalised when the recognition and measurement criteria of an asset are met.

Depreciation is calculated on cost, using the straight-line method over the estimated useful lives of the assets. The annual depreciation rates are based on the following estimated asset lives;

INFRASTRUCTURE	YEARS	OTHER	YEARS
Roads and paving	30	Buildings	30
Pedestrian Malls	30	Specialist vehicles	
Electricity	2030	Other vehicles	10
Water	1520	Office equipment	37
		Furniture and fittings	710
Housing	30	Watercraft	15
		Bins and containers	5
Community		Specialised plant and equipment	1015
Buildings	30	Other items of plant and equipment	25
Recreational facilities	2030	Landfill sites	15
Security	5		13

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the statement of financial performance.

The municipality has an obligation to rehabilitate its landfill sites in terms of its licence stipulations. Provision is made for this obligation in accordance with the Municipality's accounting policy on non-current provisions – see accounting policy 13 on Provisions.

Where the carrying amount of an item of property, plant and equipment is greater than the estimated recoverable amount, it is written down immediately to its recoverable amount and an impairment loss is charged to the statement of financial performance.

### 7. REVALUTATION OF LAND AND BUILDINGS

Land and buildings are stated at revalued amounts, being the fair value at the date of revaluation less subsequent accumulated depreciation and impairment losses on the buildings.

### 8. FINANCIAL INSTRUMENTS

There are four categories of financial instruments: fair value through profit or loss (which includes trading), loans and receivables, held-to-maturity and available for sales. All financial assets that are within the scope of IAS 39 are classified into one of the four categories.

Financial instruments include cash and bank balance, investments, trade receivables and borrowings. The municipality classifies its financial assets as loans and receivables.

Where investments have been impaired in accordance with IAS39, 5870, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period that the impairment is identified.

### 8.1 Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments. They are included in current assets, except for maturities greater than 12 months. These are classified as non-current assets. Loans and receivables are recognised as "trade and other

receivables" in the statement of financial position. Loans and receivables are recognised initially at cost which represents fair value. After initial recognition financial assets are measured at amortised cost using the effective interest rate.

### 8.2 Financial Liabilities

Financial liabilities are recognised initially at cost, which represents fair value. After initial

recognition financial liabilities are measured at amortised cost using the effective interest rate.

### 8.3 Gains and losses

Gains and losses arising from changes in financial or financial liabilities at amortised cost are recognised in profit and loss when the financial asset or liability is de-recognised or impaired through the amortisation process.

### 8.4 Investments held-to-maturity

Subsequent to initial recognition, held-to-maturity assets are measured at amortised cost calculated using the effective interest method.

### 9. INVENTORIES

Consumable stores, raw materials, work in progress, unused water and finished goods are valued at the lower of cost and net realisable value. In general, the basis of determining cost is the first in first out method.

Unsold properties are valued at the lower of cost and net realisable value on a weighted average cost basis. Direct costs are accumulated for each separately identifiable development. Costs also include a proportion of overhead costs.

Redundant and slow-moving inventories are identified and written down from cost to net realisable value with regard to their estimated economic or realisable value.

### 10. ACCOUNTS RECEIVABLE

Trade and other receivables are recognised initially at cost which represents fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for impairment is established when there is objective evidence that the municipality will not be able to collect all amounts due according to the original terms of receivables.

Significant financial difficulties of the debtor and default or delinquency in payments are considered indicators that the trade receivables are impaired. The amount of the provision is the difference between the assets carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate.

### 11. TRADE CREDITORS

Trade creditors are recognised initially at fair value and subsequently measured at amortised cost

using the effective interest method.

### Measurement

Financial Instruments are in the current and prior years recognised and measured at cost. The requirement of IAS 39.43, AG 64, AG 79 and SAICA Circular 9 that financial instruments should initially be measured at fair value has been exempted in terms of General Notice 552 of 2007.

### 12. REVENUE RECOGNITION

Revenue for the current and prior financial year was initially recognised at cost. The requirement of GAMAP 9.12 and SAICA circular 9/06 that the initial measurement of revenue be recognised at fair value through discounting all future receipts using an imputed rate of return have been exempted in term of General Notice 552 of 2007.

### 12.1 Revenue Transactions

Revenue shall be measured at the fair value of the consideration received or receivable. No settlement discount is applicable.

### Rendering of service:

When the outcome of a transaction can be estimated reliably relating to the rendering of a service, revenue associated with the transaction shall be recognised by reference to the stage of completion of the transaction at the reporting date. The outcome of the transaction can be measured reliably when all of the following conditions are satisfied:

- The amount of revenue can be measured reliably
- It is probable that the economic benefits or services potential associated with the transaction will flow to the entity.
- The stage of completion of the transaction at the reporting date can be measured reliably, and
- ♦ The cost incurred for the transaction and the cost to complete the transaction can be measured reliably.

This principle also applies to tariff or charges.

When the outcome of the transaction involving the rendering of services cannot be estimated reliably, revenue shall be recognised only to the extent of the expenses that are recoverable.

### Sale of goods:

Revenue from the sale of goods shall be recognised when all the following conditions have been satisfied:

- $oldsymbol{\diamond}$  The municipality has transferred to the purchaser the significant risks and rewards of ownership of goods
- ♦The entity retains neither continuing managerial involvement to the degree associated with ownership nor effective control over the goods sold
- The amount of revenue can be measured reliably
- $oldsymbol{\Phi}$  It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality and
- The cost incurred or to be incurred in respect of the transaction can be measured reliably.

### Rates including collection charges and penalty interest.

Revenue from rates including collection charges and penalty interest, shall be recognised when all the following conditions have been satisfied:

- The amount of revenue can be measured reliably
- ullet It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality and
- There has been compliance with the relevant legal requirements.

### Service Charges

Flat rate service charges and consumption based service charges shall be recognised when:

- $oldsymbol{\Phi}$ It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality, and
- The amount of the revenue can be measured reliably.

### Fines

Revenue from the issuing of fines shall be recognise when:

- $\pmb{\diamond}$  It is probable that the economic benefits or service potential associated with transaction will flow to the municipality and
- The amount of the revenue can be measured reliably

### Government Grants

Government Grants can be in the form of grants to acquire or construct fixed assets (capital grants), grants for the furtherance of national and provincial government policy objectives and general grants to subsidise the cost incurred by municipalities rendering services. Capital grants and general grants for the furtherance of government policy objectives are usually restricted revenue in that stipulations are imposed in their use.

Government grants are recognised as revenue when:

- $\boldsymbol{\diamond}$  It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality, and
- The amount of the revenue can be measured reliably and
- To the extent that there has been compliance with any restrictions associated with the grant.

Other grants and donations received:

Other grants and donations shall be recognised as revenue when:

- ulletIt is probable that the economic benefits or service potential associated with the transaction will flow to the municipality and
- The amount of the revenue can be measured reliably, and
- To the extent that there has been compliance with any restrictions associated with the grant.

### Levies:

Levies shall be recognised as revenue when:

- $oldsymbol{\Phi}$ It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality, and
- The amount of the revenue can be measured reliably.

Interest, royalties and dividends:

Revenue arising from the use of assets by others of the municipal assets yielding interest royalties and dividends shall be recognised when:

- $oldsymbol{\phi}$  It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality, and
- The amount of the revenue can be measured reliably.

Interest shall be recognised on a time proportionate basis that takes into account the effective yield on the asset,

Royalties shall be recognised as they are earned in accordance with the substance of the relevant agreement, and

Dividends on their equivalents shall be recognised when the shareholder's right to receive payment is established.

Income for agency services is recognised on a monthly basis once the income collected on behalf of agents has been quantified. The income recognised is in terms of the agency agreement.

Revenue from the recovery of unauthorised irregular, fruitless and wasteful expenditure is based on legislated procedures including those set out in the Municipal Finance Management Act (Act No. 56 of 2003) and is recognised when the recovery thereof from the responsible councillors or officials is virtually certain.

### 13. PROVISIONS

Provisions are recognised when the Municipality has a present or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and reliable estimate of the provision can be made. Provisions are reviewed at reporting date and adjusted to reflect the current best estimate. Noncurrent provisions are discounted to the present value using a discount rate based on the average cost of borrowing to the Municipality.

### 14. CASH AND EQUIVALENTS

Cash includes cash on hand and cash with banks. Cash equivalents are shortterm highly liquid investments that are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value.

Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdrafts are expensed as incurred.

### 15. UNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act, (Act No. 56 of 2003). Unauthorised expenditure is accounted for as an expense in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

### 16. IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No. 56 of 2003), the Municipal Systems Act (Act No. 32 of 2000), the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the Municipality's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the statement of financial performance and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

### 17. FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and would have been

avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

### 18. COMPARATIVE INFORMATION

### **18.1 CURRENT YEAR COMPARITIVES**

Budgeted amounts have been included in the annual financial statements for the current financial year only.

### 18.2 PRIOR YEAR COMPARITIVES

When the presentation or classification of items in the annual financial statements is amended, prior period comparative amounts are reclassified. The nature and reason for the reclassification is disclosed.

### 19. INVESTMENT PROPERTIES

Investment properties, which are properties held to earn rental revenue or for capital appreciation, are stated at cost less accumulated depreciation and accumulated impairment losses. Depreciation is calculated on cost, using the straight-line method over the useful life of the property, which is 30 years.

### 20. RETIREMENT BENEFITS

### (i) Defined contribution plans:

Obligations for contributions to defined contribution plans are recognised as an expense in the income statement as incurred.

Contributions to the defined contribution pension plan in respect of service in a particular period are included in the employees total cost of employment and are charged to the statement of financial performance in the year to which they relate as part of cost of employment.

### (ii) Post employment medical care benefits:

The municipality provides post employment medical care benefits to its employees and their legitimate spouses. The entitlement to post-retirement medical benefits is based on employee remaining in service up to retirement age and the completion of a minimum service period. The expected cost of these benefits is accrued over the period of employment.

### 21. EVENTS AFTER BALANCE SHEET DATE

Recognised amounts in the financial statements are adjusted to reflect events arising after the balance sheet date that provide evidence of conditions that existed at the balance sheet date.

Events after the balance sheet date that are indicative of conditions that arose after the balance sheet date are dealt with by way of a note to the financial statements.

### 22. LEASES

Leases are classified as finance leases whenever the terms of the lease transfer substantially all of the risk and rewards of ownership to the lessee. All other leases are classified as operating leases. Operating lease payments are recognised as an expense on a straight-line basis over the lease period.

### 23. CONTRIBUTIONS

Contributions reflected in the statement of financial performance consist of contributions to the leave reserve fund, working capital reserve (Provision for bad debts) and contribution towards the accounts of the indigent consumers in the municipal area.
